Hernia Repair Surgery: A Comprehensive Review of Innovative Reconstructive Approaches

Published On: April 19, 2025 | Pages: 003 - 011

Author(s): Ayat Fatima*, Sayyed Aun Muhammad and Abdul Mateen

Hernia repair surgery has seen significant advancements in recent years, as public awareness of concerns about mesh in surgery has increased. It emphasizes the importance of developing new treatment methods to increase survival rates and improve quality of life following surgery. New mesh compositions and absorbable biomaterials are more durable and biocompatible than ...

Plummer-Vinson Syndrome Revealing Gastric Tumor: A Case of a Very Rare Association

Published On: April 22, 2025 | Pages: 012 - 014

Author(s): Abderrahmane Jallouli*, Nidale Laghfiri, Mouna El Bouatmani, Oussama Nacir, Fatimaezzahra Lairani, Adil Ait Errami, Sofia Oubaha, Zouhour Samlani and Khadija Krati

Background: Plummer-Vinson Syndrome (PVS) is a rare clinical entity defined by the triad of dysphagia, iron deficiency anemia, and esophageal webs. While commonly associated with upper aerodigestive tract malignancies, its link with gastric tumors is exceptionally rare. Case presentation: We report a case of a 66-year-old male with PVS who was ultimately diagnosed wi ...

A Case of Colonic Vasculitis Mimicking IBD in a 45-Year-Old Female: A Clinical Case Report

Published On: February 25, 2025 | Pages: 001 - 002

Author(s): N Laghfiri*, M Elbouatmani, A Jallouli, O Nacir, FZ Lairani, A AitErrami, S Oubaha, Z Samlani and K Krati

Colonic vasculitis is a rare condition that can mimic Inflammatory Bowel Disease (IBD) due to its clinical presentation. We report the case of a 45-year-old female, a passive smoker, presenting with isolated colonic vasculitis manifested by bloody mucus diarrhea. Investigations, including colonoscopy and histopathology, allowed the differentiation of this vasculitis f ...
