Isolated splenic metastasis: An unusual presentation of colonic adenocarcinoma

Published On: August 24, 2019 | Pages: 027 - 030

Author(s): Mohsin Aijaz*, Mahboob Hasan and Feroz Alam

It is very uncommon situation in which primary colonic carcinoma is asymptomatic and presents as isolated splenic metastasis. Involvement of spleen by secondary tumors is usually seen in disseminated spread of tumor. However, isolated splenic involvement by tumor metastasis is an infrequent event, except in cases of lymphoid origin malignancy where spleen is commonly ...

A study of post-operative complications of all emergency laparotomy in a tertiary

care hospital within 90 days

Published On: July 10, 2019 | Pages: 015 - 018

Author(s): AR Bansal, Manas Ranjan Mallick* and Suvendu Jena

Introduction: An emergency laparotomy is a life saving procedure undertaken mostly in acute cases without much preparation of the patient. Despite being one of the most common urgent surgical procedures, it still proves to be a challenge for the surgeons of the world. ...
