Secondary Breast Lymphoma: A Case Report

Published On: November 06, 2017 | Pages: 019 - 021

Author(s): Jana Taron*, Sabrina Fleischer, Sonja Bahrs, Heike Preibsch, Valerie Hattermann, Markus Hahn and Benjamin Wiesinger

Breast lymphomas are a rare sighting and image fi ndings are non-pathognomonic often mimicing different forms of invasive breast cancer. Nevertheless, multimodal imaging and subsequent histopathology are crucial for diagnosis and treatment. To draw attention to this very rare entity, we present a case of a 74 year old female patient with a tumorous mass in the left ...

Are We Performing the Right Long Term Thromboprophylaxis of Port-A-Cath? Report of a Case of Upper Limb DVT with PE and Port-A-Cath Migration

Published On: April 13, 2017 | Pages: 010 - 012

Author(s): Pierpaolo Di Micco*, Luca Fontanella, Andrea Fontanella and Luigi Pirolo

Upper limb DVT occurs in nearly 4-10%, but incidence increases in people that carry catheters for a long time. However

thromboprophylaxis in carriers of catheters is not suggested. We report a case of upper limb DVT with pulmonary embolism with catheter migration into the heart. ...
