The cosmic vision of young Catholics on the sexuality interface and prevention of Human Immunodeficiency Virus

Published On: November 29, 2018 | Pages: 001 - 005

Author(s): Pablo Luiz Santos Couto, Mirian Santos Paiva, Antônio Marcos Tosoli Gomes, Rafael Moura Pecley Wolter, Marizete Argolo Teixeira, Carle Porcino and e Samantha Souza da Costa Pereira

Objective: To analyze the meanings attributed by young Catholics on the interface prevention to HIV and sexuality from the perspective of social representations. Methods: It is a qualitative study that used the Theory of Social Representations as a theoretical contribution for analysis and discussion, carried out with 84 practicing young Catholics, who responded to ...
