Author(s): Relevance of rapid, reliable and low-cost diagnostics in the current COVID-19 pandemic

COVID-19 virus has emerged as a global pandemic. This zoonotic virus has known to be originated in China, which within few weeks has spread across the world. The virus has infected millions of people and lakhs have died due to this virus. It has high transmissibility with a reproductive number (Ro) of 2.2. Many cases are reported asymptomatic, hence making the control ...
