Diabetes and COVID-19: Biological profile of type 2 diabetic patients with COVID-19 in Pointe-Noire, Congo

Published On: June 14, 2022 | Pages: 001 - 006

Author(s): Luc Magloire Anicet Boumba*, Aladin Atandi Batchy, Charley Elenga-Bongo, Freddy Saturnin Pouki, Fredy Kibouilou, Christ Nkouanga Balanda, Cheick Ahmed Dabo Tidiane, Saar Abdoul Wahar, Didel Mampassi Mahouanga, Ghislain Loubano Voumbi and Donatien Moukassa

Introduction: COVID-19 is new pneumonia caused by SARS-CoV-2 infection. Several factors of bad prognosis have been implicated including diabetes. Several poor prognostic factors have been associated with the severity of this disease, including diabetes. In Congo, no study to date has investigated the profile of diabetics hospitalized for COVID-19. The aim of this stud ...
