## Benefits of omega-3 polyunsaturated fatty acids to patients with oral and metabolic diseases

Published On: February 21, 2023 | Pages: 001 - 004

Author(s): Da-Ming Liao and Chieh Chen\*

The human body cannot produce omega-3 fatty acids and must obtain them from the diet. There are three types of omega-3 fatty acids that are needed by the human body, namely -linolenic acid (ALA), Docosahexaenoic Acid (DHA) and Eicosapentaenoic Acid (EPA). Although studies have shown that omega-3 fatty acids cannot prevent or treat diabetes or heart diseases, they did ...

## A rare and challenging case of ROHHAD (Rapid-onset Obesity with Hypoventilation, Hypothalamic Dysfunction, Autonomic Dysregulation) syndrome

Published On: April 08, 2023 | Pages: 005 - 008

Author(s): Cláudia Correia\*, Inês Cascais, Rita Gomes, Helena Ferreira Mansilha, Lurdes Morais, Marta Rios and Alberto Caldas Afonso

Rapid-onset Obesity with Hypoventilation, Hypothalamic Dysfunction and Autonomic Dysregulation is a rare and complex pediatric syndrome with unknown etiology. The disease hallmark is sudden and severe obesity in early childhood, with a later onset of central hypoventilation, responsible for high mortality. We present the case of a 2.5-year-old boy with sudden weight ...
