Identification of pre-operative, intra-operative and post-operative risk factors for aspiration pneumonia in patients undergoing abdominal surgery

Published On: July 12, 2019 | Pages: 001 - 006

Author(s): Kyle John Lindfield* and Andrew Little

Objective: To investigate the pre-operative, intra-operative and post-operative risk factors associated with aspiration pneumonia in patients undergoing abdominal surgery. We also aimed to identify the risk-factors that were associated with increased mortality. Design: Retrospective audit. Setting: Single regional centre located in Australia. Participants: Patien ...
