Tuberculosis epidemiology in Cabo Verde from 2006 to 2016

Published On: May 19, 2021 | Pages: 003 - 007

Author(s): Silvânia Da Veiga Leal*, Isaías Varela and Tomás Alves de Só Valdez

Tuberculosis is an infectious disease usually caused by the bacteria Mycobacterium tuberculosis. This study aimed to analyze the epidemiological profile of Tuberculosis in Cabo Verde from 2006 to 2016. This is an epidemiological, longitudinal and descriptive study in which the secondary data on Tuberculosis were obtained from the annual statistical reports of the Mini ...

COVID-19, Time to Change Course

Published On: January 22, 2021 | Pages: 001 - 001

Author(s): Olen R Brown*

Nearly one year ago the world awoke to a new disease, COVID-19. National economies and the lives of almost every individual on the planet Earth were directly impacted. The initial political and medical successes were to “flatten the curve” with social distancing, wearing masks and “lock-down” of society, and then to race toward a safe and effective vaccine. Two vaccin ...
