Glaucoma awareness and knowledge among adults in woliso town, South West Ethiopia

Published On: August 06, 2020 | Pages: 087 - 090

Author(s): Mahlet Tsegaye, Abiye Mulugeta and Abeba T Giorgis*

Glaucoma is the leading cause of irreversible blindness worldwide and it is next to cataract as common cause of blindness [1-4]. The global prevalence of glaucoma for population aged 40–80 years is 3.5%. The magnitude of glaucoma is expected to keep increasing with the world population growth and increasing number of ageing people [5]. Ninety percent of affected peopl ...

The analysis of characteristics of anti-SARS-CoV-2 antibodies in clinically COVID-19 patients

Published On: July 31, 2020 | Pages: 081 - 086

Author(s): Wenzheng Guo, Siyuan Yu, Guangbo Li, Qiankun Xuan, Simin Yang, Donghua Wen and Wenjuan Wu*

Background: The novel coronavirus disease (COVID-19), caused by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2), had spread all of China and many other countries. The COVID-19 patients exhibit typical clinical symptoms, and most cases could be diagnosed by nucleic acid testing and imaging. Recent studies have reported that serum antibody testing can be us ...

Theory: Morphological and functional features of the structure of the Zonula Lens Fibers as a key executive link in the mechanism of the human eye accommodation

Published On: July 22, 2020 | Pages: 061 - 074

Author(s): Ivan N Koshits, Olga V Svetlova*, Maksat B Egemberdiev, Marina G Guseva, Felix N Makarov and Nikolas M Roselo

Kesada

Purpose: Assess morphophysiological and functional features of the structure of the zonula lens fibers on the basis of an in-depth analysis consistent with the laws of mechanics. Define the purpose and scope of each portion of the zonula lens fibers. To analyze the results of the research of studies on the structure of the zonula of Zinn in the different authors of th ...

Preservation of capsular transparency and geometrical consistency in cataract surgery using a novel intracapsular ring

Published On: November 09, 2020 | Pages: 101 - 104

Author(s): Ahmed Elmassry, Onurcan Sahin, Loukia Leonidou*, Dimitris Liakopoulos, Harilaos Ginis, Aristophanis Pallikaris and Ioannis Pallikaris

We report a case of a patient that was implanted with an intracapsular ring during phacoemulsification cataract surgery. Namely, we report on refraction, posterior capsule transparency and IOL ACD and document photographically the appearance of the posterior capsule. It is suggested that the presence of the intracapsular ring has inhibited epithelial cell migration an ...

Congenital left hemidiaphragm agenesis and use of glatiramer acetate

Published On: August 11, 2020 | Pages: 091 - 093

Author(s): Hossein Kalanie, Ali Amini Harandi* and Manije Farajpoor

Congenital Diaphragmatic Hernia (CDH) is a congenital defect of the diaphragm through which intestine and other viscera herniate in to the chest. In extreme form of diaphragmatic maldevelopment, there might be a complete agenesis of diaphragm. Neonates with CDH present postnatally with respiratory distress and a characteristic absence of breath sounds in the ipsilateral ...
