Retrospective Analysis of Mifepristone for the Cervical Preparation of Labour **Induction in Live Births**

Published On: August 09, 2025 | Pages: 011 - 018

Author(s): Beda Hartmann*, Sylvia Kirchengast, Johannes Huber, Lisa Rindler, Melanie Colegrave, Herbert Kurz and Linda AW Verhagen

Background: Mifepristone is a synthetic antagonist of progesterone and glucocorticoid receptors that is sometimes used for the induction of labour. However, because it is licensed as an abortive agent, its safety profile in healthy deliveries may be of concern. Therefore, this study aimed to evaluate the maternal and neonatal safety of mifepristone for the preparation ...

PBX1 Gene Disorder in the United Kingdom: Case Report and Review of **Available Literature**

Published On: September 26, 2025 | Pages: 019 - 023

Author(s): Anthony Emeka Madu*

It has been well-established that as science advances, genetic and inherited conditions that could not have been detected centuries ago will become detectable, and affected individuals will have at least a diagnosis in hopeless situations. Such was very apparent in this case. For decades, the three main chromosomal trisomies, Turner's syndrome, Fragile X syndrome, and ...
